

What is MSSP?

MSSP is a statewide, community-based care management program offered through the Humboldt Senior Resource Center and funded by state and federal agencies.

MSSP helps eligible frail elderly adults live at home by delaying or preventing placement in a skilled nursing facility.

MSSP provides an experienced Care Manager to meet with you and your family to assess your needs, and who provides long-term help with arranging the services you require. Your Care Manager will contact you monthly and will offer continuous support.

Is There a Cost for MSSP Services?

There is no cost for this service, which is paid by the federal government and the State of California.

“Because of your services, you have helped me to be able to stay living in my home.”

Lawrence
